OBJECTIVES

1. I am an Information Technology student who is interested in a career in technology. I am currently in search of an internship opportunity that would allow me to utilize my academic knowledge and practical experience in a collaborative environment. I am enthusiastic about the prospect of contributing to your organization's activities and endeavors.
2. I have a fundamental knowledge across the different fields of Front-End Web Development, Embedded Systems, Manual Software Testing, Database Development, Cloud Computing, Information and Data Analysis. I am capable of performing efficiently both independently and in a collaborative setting. Furthermore, I possess the ability to efficiently prioritize duties, meet deadlines, and manage time. I am fascinated by the means of adapting to the rapidly evolving technologies.

Education

Mapúa Malayan Colleges Laguna, Pulo-Diezmo Road Cabuyao City, Laguna, Philippines.

Bachelor of Science in Information Technology, 2021 – present

Graduates of the Bachelor of Science in Information Technology program are expected to effectively solve problems by applying emerging technologies and ICT principles in the design and evaluation of computing systems. They should excel in both individual and team settings, advancing into technical or leadership roles. Furthermore, they are encouraged to pursue lifelong learning to adapt to evolving organizational demands.

Relevant courses:

- Web Systems and Technologies
- Information Assurance and Security
- Interfacing M2M Communications
- Microcontroller Platform Programming
- System Analysis and Design
- Information Management

SKILLS

PERSONAL

- Capable of quickly adjust to new technologies, tools, and methodologies.
- Capable of effectively managing time to reconcile personal responsibilities and tasks.
